OBJECTIVE

Detail-oriented Full-Stack Developer proficient in interpreting project requirements, collaborating with cross-functional teams, and delivering high-quality solutions within established timelines. Demonstrated ability to rapidly acquire and apply new technologies, frameworks, and programming languages. Motivated self-starter with strong organizational and time management skills, committed to creating efficient and innovative software across both front-end and back-end development.

PROFESSIONAL EXPERIENCE

Nov 2023 – Feb 2024

Information Technology Institute (ITI): Full-Stack

Completed Full Stack MEARN track at ITI. Proficient in web app design, development, and deployment using Angular, React, Node.js, and Express.js. Hands-on with MongoDB for database management. Proven collaborative problem-solving skills, successfully delivering scalable solutions within team environments.

Apr 2023 – Aug 2023

CLS: DevOps

Engaged in DevOps practices from April to August 2023. Proficient in Docker, Kubernetes, Ansible, GitHub, Jenkins CI, and Terraform for streamlined development, deployment, and infrastructure management in AWS.

PROJECTS

Dec 2023 – Jan 2023

Ecommerce-Website: -

Developed a responsive web application using HTML, CSS, and JavaScript, ensuring optimal performance across diverse devices. Collaborated within a cross-functional team, translating project requirements into a visually appealing Ecommerce-Website. Implemented modern design principles for an intuitive user interface.

Key Achievements: -

Successfully collaborated within a cross-functional team, translating project requirements into a functional and visually appealing Ecommerce-Website.

Implemented modern design principles to enhance the overall user experience.

Jan 2024 – Feb 2024

Pinterest Clone Project (Bootstrap 5):

Created a Pinterest clone project using Bootstrap 5, showcasing proficiency in front-end design and responsive web development.

Khmsat Clone Project (MongoDB, JavaScript, Angular, React, Node.js):

Executed a graduation project involving the development of a Khmsat clone, integrating MongoDB, JavaScript, Angular, React, and Node.js. Demonstrated expertise in full-stack development and database management.

TECHNICAL SKILLS

Programming Skills:

- JavaScript
- Html5, CSS3
- OOP, Data Structures and Algorithms.
- Angular and React
- Node.js
- Express.js
- MongoDB
- Full Stack Development

DevOps Skills: -

- Linux Administration
- Bash Shell Scripting
- Version Control System (Git & GitHub)
- Infrastructure as Code with Terraform
- Cloud & IaaS with AWS
- Containerization with Docker
- Build Automation & CI/CD with Jenkins
- Kubernetes

EDUCATION

2015 – 2020 Bachelor of Civil Engineering: HTI Minya, Grade: Good

SOFT SKILLS

- **Adaptability and flexibility**, with the ability to work on multiple projects simultaneously and quickly switch between tasks as needed.
- **Attention to detail**, with a focus on delivering high-quality work that meets or exceeds expectations.
- **Excellent interpersonal skills**, with the ability to build strong relationships with colleagues, clients, and partners.
- **Excellent time management skills**, with the ability to prioritize tasks effectively and meet project deadlines.
- **Presentation Skills**: Proficient in presenting ideas, information, and solutions in a clear and engaging
- **Searching Skills**: A keen ability to research and gather information effectively to support decision-making and problem-solving.
- **Quick Learner**: Adept at rapidly acquiring new skills and knowledge, facilitating quick adaptation to evolving tasks and challenges

LANGUAGES

- **English**
Very good command of written and spoken English.
- **Arabic**
Native.
